MAKEUP ARTISTRY & DESIGN PORTFOLIO

MUD CERTIFIED MAKEUP ARTIST · COSMETOLOGY EDUCATOR

THE WORK

Twenty distinct makeup design families were curated from a 1,042-image archive after removing exact duplicates, near-duplicate revisions, and unrelated material. The collection moves from refined wearable beauty through period, character, and editorial effects.

DESIGN APPROACH

Complexion, color, proportion, and placement are adapted to the model rather than copied mechanically. Each portrait emphasizes readable technique, intentional harmony, and professional finish across varied ages, skin tones, face structures, and eye shapes.
